H-1029 Budapest, Jozsef Attila utja 25.

**Re: EGIS Pharmaceuticals PLC's in Budapest**

Dear Mr. **Csaba Nagy-Kriston**,

Following the review of the ground contamination levels for the project above mentioned (see report "Talajviz vizsgalat, GC-MS 43/2022 kivonat, Talajviz vizsgalat, GC-MS 108/2022"), GCP Applied Technologies (UK) Ltd can confirm that those levels of chemicals will have no adverse effect on the performance of Preprufe® 250 membrane.

Yours Sincerely

Ir. Bernard Cvijanovic, Technical Service Director Europe  
GCP Applied Technologies (UK) Ltd.
